This speciman plan is to depict a survey pursuant to Chapters 2.2 and 2.6 of the National Standards for the Survey of Canada Lands.

This plan shows:

- a resurvey of a jurisdictional boundary:
- geo-referencing to NAD83 CSRS using Precise Point Positioning.

UTM COORDINATES - NAD83 (CSRS) ZONE 17 81° West Longitude

SCALE 1:5000 0 50 100 150 200 300 500 METRES

The plot size that will provide true scale and optimum readability for this plan is 500MM by 600MM.

THIS SURVEY WAS EXECUTED DURING THE PERIOD OF \_\_\_\_\_(Date) TO \_\_\_\_\_(Date) BY\_\_\_\_\_ (Name of Surveyor), CLS

## LEGEND:

Bearings are grid, derived from GCP1 and GCP2 using differential carrier phase GNSS observations and are referred to the central meridian of UTM Zone 11 (117° West Longitude)

Old pattern iron post found — — — — — — — — — — — — — — — — — Tie lines shown thus

1.5 m long iron T-section markers have been placed on-line at intervals of approximate 300m, on all boundaries dealt with.

FNE stands for found no evidence

This plan shows the horizontal ground distances in metres. To compute grid distances, multiply ground level distances by the average combined scale factor of 0.999721.

All CLS 77 monuments placed during this survey are marked with "IR" and the year of survey.

The north boundary has been cut out and blazed. The west boundary is adjacent to traveled road and was not cut out or blazed.

All monuments found and are placed have been referenced with a 1.5 m fiberglass marker on-line 0.3 m north or west of the monument. A plaque is attached to each marker with the words "Legal Survey Marker" inscribed thereon.

Directions to bearing trees are grid and distances to BTs are in metres and measured horizontally.

The Survey Report for this survey has been recorded under FB \_\_\_\_\_CLSR.
